Trust Triad for employment screening automation

After years of trying to reduce cost-to-screen and time-to-hire, it seems as if you have tried everything: countless employment screening companies, new technology, even canceling new initiatives.

But, the cost of screening and the time it takes to screen, remains a problem in most HR departments.
And you ask:

"How can I implement an employment screening program that really works. What is the long term strategy that can cut costs, improve return time and give us the information we need to hire the right employees today?"

Triad can help. As a trusted and experienced leader in employment screening, Using our tried and true screening methodology together with the most advanced technology, Triad can substantially reduce your overall cost-to-hire and actually reshape the way you think about employment screening. Triad can provide the tools, knowledge and people to make sure you get the most out of screening employees while saving you time and money.

Benefits to working with Triad on streamlining your screening process, include:

Reduced cost - A track record of providing savings of up to 50% on long term screening programs through improved return times and process automation.

The Best Technology Triad's technology is second to none when it comes to delivering true automation. From it's feature rich personal account management, to automatically disbursing orders to information sources, our 100% Web-based system is built around saving you time and money.

Customer Service All of our screening programs come equipped with knowledgeable staff and consultants ready to server your needs. Anticipation not reaction drives our service.

We Know Your Business After 22 Years, we know the most important ingredient to any successful screening program is understanding the way our customers do business. Rest assured, before we implement any program, we'll know your business, the people, and the process.
